Accessories

Name	Quantity
Smoke machine	1piece
Power cord	1 piece
Manual	1 piece
Remote controller	1piece

Technical Parameter

Power: 2000W

Voltage: AC 220V 50Hz

Warm-up time: 20 seconds

Capacity of tank : 5 liters

Liquid consumption : 200min//L(30%) 120Min/L(100%)

DMX channels : 2 channel

3/5-pin DMX input /output

Control mode : LCD/DMX512/ remote control

Weight:16.75kgs

G.W:17.5kgs

Size : 52*26*41 cm

Packing size: 56*30*43.5 cm

outine Maintenance and common faults

Periodically clean your machine to reduce replacement parts and repair expenses.
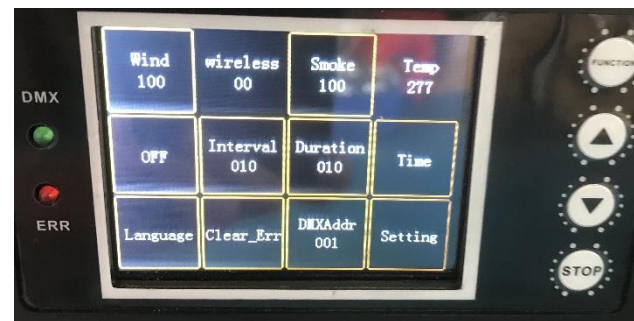

1. The poor fog liquid can cause blockage, it is recommended to use high quality fog liquid.

2. The machine might be blocked due to high concentration fluid, not clean fluid or overheat, so regular care and maintenance can ensure long-term use. After about 40 hours continually use, please use 80% distilled water and 20% white vinegar to remove the accumulated impurities inside the heat pipe , as following:

1）washing the pipe in the tank and the filter head.

2）Pour out the fog liquid , replacing the cleaning liquid (80% distilled water and 20% white vinegar), turn on the power , keep it operating till the cleaning liquid runs out.

3. If the fog turns less, and the pump makes noise, or can not spray fog, you should turn off the power immediately and at the same time check the fluid tank, fuse and power plug. If all of these are normal, please connect the power with the plug and try again.

Touch screen LCD display:

There is no independent Power switch on the machine.After connect the device with blue powerCON cable,then turn right the blue powerCON that will be in startup status and preheating.LCD shows 12 functions`option. You can choose option to adjust what you want.
