Instruction Manual

(RGB 20W Animation Laser Lighting)

This user manual contains important information about the safe installation and use of this product. Please read and follow the instruction carefully and keep this manual in a safe place for future reference.

Professional stage lighting

Getting Started

Thanks for choosing our product, please read and follow the instruction carefully and keep this manual in a safe place for future reference.

This high power laser projector is made of Aluminum housing, with elegant appearance, energy-saving, long lifetime, suitable for indoor use.

The product is designed and produced strictly as per CE standard, in accord with international DMX512 protocol. One product can be controlled alone or many products can be controlled together for big shows, theaters, studios, KTV, walls of the hotel etc..

1. Security warning:

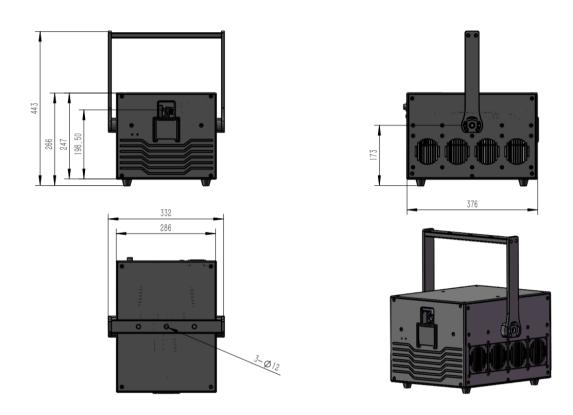

- 1. When unpacking and before disposing of the carton, check if there is any transportation damage before using the product. Should there be any damage caused by transportation, consult your dealer and do not use the apparatus.
- 2. Do not install the product or project the beam onto inflammable surfaces. Minimum distance is 5 M.
- 3. The product is only intended for installation, operation and maintenance by qualified personnel.
- 4. Product should install in a cool place. Keep away from the wall 50cm.
- 5. Avoid direct exposure to the light from the lamp. The light is harmful to eyes.
- 6. Keep the optical system clean. Do not touch the laser reflect lens with bare hands. Do not use any alcohol liquid or any other liquid to clean the optical system. Use medicinal absorbent cotton to clean it.
- 7. Please do not attempt to dismantle and/or modify the product inner structure. Otherwise 1 year of warranty will get invalid.
- 8. Before installation, ensure that the voltage and frequency of power supply match the power requirement of the product.
- 9. It is essential that each product is correctly earthed and that electrical installation conforms to all relevant standards.
- 10. Make sure that the power-cord is never crimped or damaged by sharp edges. Never let the power-cord come into contact with other cables. Only handle the power-cord by the plug. Never pull out the plug by tugging the power-cord.

product with the c	over removed.		

2. Technical parameters:

Description	parameters			
Laser power	20W			
Product name	RGB 15W animation laser lighting			
Red laser module:	638nm 6W laser diode			
Green laser module:	525nm 6W laser diode			
Blue laser module:	445nm 8W laser diode			
Special effect	Different patterns of colorful beam, wave and line			
Beam size:	5*8mm			
Connector In	ILDA, SD card, DMX, Mic			
Connector Out	ILDA, DMX			
Voltage & power	220Vac,50/60Hz (±10%), 750W			
Scanner	40Kpps			
Working/Storage temperature	—20 −40°C			
Net weight	29kg			
Size (L x W x H):	$376 \times 332 \times 266$ mm			
Control mode	ILDA、SD card、Auto、DMX 512、Sound			
Other features	Air cooling, RGB brightness adjustable individually, XY mirror image & pattern size adjustable, XY scanner system, optical components hermetically sealed, 10 Second warm-up time, low-power scanning electronic protection system, no special maintenance needed.			
Laser Safety	keyed power switch, chain device, safety current protection for scanning failure.			

3. Product size display:

4. Main function:

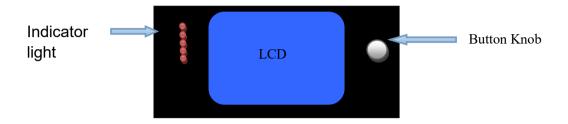

Auto mode: from the LCD display ILDA Lock option, click ON/OFF to start the Auto mode.

ILDA mode: When you use software to control the laser, connect the ILDA cable to the computer.

ILDA to RJ45: from the "ILDA Lock" option, select "on" mode, connect the signal cable.

DMX mode: connect the DMX cable to the lighting console, then ready to operate.

5. LCD display as follows:

Using the tap button and LCD menu display function, the menu operation is easy. From the button and knob to select the function.

Click to select the function, double-click to return to the main menu.

The LCD function display description:

Auto/自走	SD List/ SD列表
Sound/声控	exFlash/存储列表
DMX: x	Setting/设置
Slave/从机	Device/设备参数

DMX: x - x represents the current address code.

7. Safety instructions
For safety reasons, please follow the following instructions:
□ Do not disassemble or alter the unit.
□ Do not drop flammable liquids, water and metals into the machine.
Avoid using the unit in the following situations:
☐ The relative humidity is too high.
□ oscillation or collision environment.
Note:
$\ \square$ if you encounter serious difficulties in use, please stop immediately, and inquire agents or manufacturers fo
inspection.
□ Do not disassemble the unit, there are no internal repair parts.
□ Please request inspection by qualified personnel.
